Coatings & Flooring

Eco-friendly

Ultra-durable

Multi-purpose

Easy-application

ECO-FRIENDLY CHOICES

EcoChoice is a range of new generation, 2 pack, water based, epoxy and polyurethane coatings.

EcoChoice coatings have been specifically developed to answer a long-standing call for hard-wearing, serviceable and environmentally responsible floors.

EcoChoice coatings are designed to fulfill the most demanding floor finishing requirements from anti-slip to chemical resistance for almost any internal or external application.

1. Showrooms & Retail – Attractive & Serviceable

2. Basements & Car Parking – Hardwearing & Easy-to-Clean

FOR CONCRETE FLOORS

3. Workshops & Warehousing - Heavy Duty & Chemical Resistant

4. Laboratories & Food Preparation – Hygienic & Safe

5. External Walkways & Podiums – Anti-slip and UV Resistant

ECO Choice Coatings & Flooring

Specifying the Right Choice

Floor finishing requirements are dictated by the intended use of the floor. For instance, a food preparation area will need anti-slip, chemical resistance and easy-to-clean properties.

Discuss your specific project needs with one of our consultants today or email details of your project to: aquron@ctpgroup.com.au

Slip Resistance and Safety

All EcoChoice floor finishes are available in various grades of slip resistance.

Test results and certification are available.

The Colour of Your Choice

EcoChoice Coatings are bulk-stocked in a limited number of popular standard colours. However, any colour can be matched and manufactured to meet your requirement.

Caring for the Environment

EcoChoice coatings are safe for the environment and most of the products in the range are now fully certified as low VOC.

Quality Assurance

The manufacturing facility for EcoChoice coatings is fully certified to ISO 9001.

For you, this means consistent quality and first class service, on time, every time.
